**Re: Home Rule Advisory Group meeting at 10:00 a.m. October 22, 2014 @ SCAQMD in Conference Room CC-8**

Attached please find the agenda package for the Home Rule Advisory Group meeting at 10:00 a.m. on October 22, 2014, at SCAQMD in Conference Room CC-8. The agenda and attachments have been combined into one PDF document which includes the following items:

- Agenda
- SSC Summary from HRAG meeting on 9/17/14 and quarterly attendance record (Agenda Item No. 2)
- HRAG Report to the Legislative Committee (Agenda Item No. 5)
- Litigation Update (Agenda Item No. 6)
- Revised CARB Control Measures Calendar (Agenda Item No. 8)
- Proposed Draft 2015 HRAG meeting schedule (Agenda Item No. 9)

There is no written material for Agenda Item Nos. 3, 4, 7, and 10.

Note: The minutes for the Home Rule Advisory Group meeting on 9/17/14 (also Agenda Item No. 2), is attached as a separate document.

Copies of these documents will be available at the meeting.

**Attachments:** ID 124838 Exide Technologies - Facility Cover Letter Revised Facility Pe....pdf  
  
**Importance:** High

Hi John. I checked with my staff and they informed me that you are correct. Before we sent the Proposed Permit to EPA, we asked for expedited review from EPA and late yesterday afternoon EPA completed their review, which EPA responded the same day (thanks Roberto and Gerardo for the extremely quick turnaround!) and at 5:55 p.m. we issued Exide the Final Permit for installation of the HEPA Filters on Hard and Soft Lead Baghouses and Screw Feed on the Reverb Furnace.

So Exide can start the construction on these changes. I have attached another copy of the cover letter and Final Title V Permit to Construct. Thanks.

Mohsen,

Thanks for your reply.

There was a second email from Charlie which indicates that indeed we do have a revised permit.

We will stand down until we hear back from you, but I would ask that you open the attachment in the email from Charlie sent at 5:56 pm yesterday.

Best Regards- John

> Hi John. I received your voice message this morning asking if Exide can begin construction of the HEPA filters on Hard and Soft Lead Baghouses and installation of the Reverb Furnace Screw Feed based on the proposed Revision to Exide's Title V Permit that was sent to EPA yesterday. Please note that the email sent yesterday to EPA by Charlie does not constitute the final permit and until we hear back from EPA regarding any comments that they may have and the SCAQMD has issued the final Permit, Exide can NOT start the construction. Thanks.

Hi Gerardo. I appreciate a quick turn around on this Minor TV Permit Revision to add HEPA filters to 2 existing baghouses and replace the Ram Feed for the Reverb Furnace with a more efficient and less emitting screw conveyor for Exide. They are shutting down their plant tonight for a turnaround and need the final permit by Monday or Tuesday so they can install the subject equipment while they are down.

Thanks in advance for your and your staff's assistance. Have a nice weekend.

Mohsen Nazemi

Dear Colleagues --

On February 11, Regional Administrator Jared Blumenfeld signed a Federal Register notice approving the attainment plan for the Los Angeles County lead nonattainment area. The notice should be published in the Federal Register within 2 weeks. The final rule will be effective 30 days after publication.

I am attaching a fact sheet and a prepublication version of the notice. They will also be available online shortly at: <http://www.epa.gov/region9/air/actions/ca.html#south>

If you have any questions, please call me at 415-972-3183.

Thanks so much,  
Elizabeth

Hi Debbie, Kathleen and all. Welcome back. I just wanted to make sure that you are in the loop on the issue related to Allenco oil production site in South LA. I have attached the letter from Senator Barbara Boxer, which you already had seen and a press release from Congresswoman Karen Bass, along with the notice of our townhall meeting and presentation provided at our townhall meeting this week on the evening of Wednesday, October 16, 2013.

Lastly we just issued two other Press Releases today on Exide and Ridgeline, which I have also attached to this email. This is just an FYI. Hope you have a nice weekend.

### Rep. Karen Bass Statement on Recent Reports of Illness Due to Oil Drilling in South Los Angeles

WASHINGTON- Today, Congressmember Karen Bass released the following statement in reaction to recent reports of illness linked to oil drilling in the University Park neighborhood of South Los Angeles: “I am deeply concerned to hear that children and families are experiencing dizziness, headaches, and nosebleeds that may be caused by poor air quality and odors emanating from urban oil fields in South Los Angeles. We must immediately investigate these serious public health concerns.

While I am encouraged that the South Coast Air Quality Management District (SQAQMD) is holding a town hall to discuss air quality concerns at the Allenco Energy site this week, it is critical that all regional and national oversight entities not only listen, but immediately investigate the problems experienced by the residents. University Park residents deserve to breathe clean air and play outside without fear of toxic odors.

I look forward to working alongside Senator Barbara Boxer and local elected officials to bring to bear the resources of all relevant departments and agencies. We have already sent letters and inquiries to the Department of Energy and the Environmental Protection Agency.

Frustratingly, the unnecessary government shutdown has halted federal spending and impeded the Environmental Protection Agency’s ability to investigate this situation. Yet, I will continue to push for safeguards until we can guarantee the safety of the oil operations within all South Los Angeles neighborhoods.”

On Wednesday, September 16, the South Coast Air Quality Management District (SCAQMD) will host a town hall meeting to discuss air quality and odors in the University Park neighborhood surrounding Allenco Oil Company. As reported by the Los Angeles Times, residents in the community say they have suffered from respiratory ailments, headaches and nosebleeds since 2010, when Allenco ramped up production at its wells by more than 400%. Neighbors complained to state air quality officials 251 times from 2010 to 2013. As a result, the South Coast Air Quality Management District responded by issuing 15 citations against Allenco for foul odors.

*U.S. Rep. Karen Bass represents the 37th Congressional District, which includes Los Angeles, Century City, and Culver City and was the 67th Speaker of the California Assembly. Rep. Bass serves as the Ranking Member of the House Foreign Affairs Subcommittee on Africa, Global Health and Human Rights.*
